

Absolute „must have”

Media-Tech introduces an interesting hybrid: **SMART HF HOLDER MT6214**.

This device has the functionality of a phone holder, a charger, a FM transmitter, and a hands-free set.

Comfortable and ergonomically shaped earphone hidden in the holder's body allows to safely talk while driving.

Music played through the FM transmitter is of very high quality.

The set can be controlled with easily accessible buttons. Tuning is also possible with included remote control.

SMART HF HOLDER MT6214 fits standard car lighter socket with voltage 12-24V, so it can be used both in cars and in trucks.

Features:

- Compact smartphone holder with USB charger and hands-free function
- Built-in FM transmitter redirecting sound to car audio system
- Wireless earphone for private conversations
- High quality microphone
- Short-circuit and power-surge safe
- 360-degree rotatable grip and flexible arm strong enough for 59-85mm wide smartphone
- Fits standard car lighter socket (12-24V)

Warranty: 2 years
